### FOR AGENTS

It is fast and easy selling with large profits. We honestly believe that the *Gem Type-writer* is the best selling article ever handled by agents. It is entirely new and its field is unlimited. It can be sold in almost every home and office. It is becoming very popular and nothing has ever been offered the public so well worth the money. Consider a moment! A Type-writer, handsome, rapid, perfect, easily operated, with all the letters, figures and punctuations necessary for all correspondence for **50 cents**, boxed, with full directions, a bottle of ink—enough to last 5 years—and postage paid. Its novelty, attractiveness, and ingeniousness combined with its marvelous cheapness, will command the interest of everyone, and its practicality is at once apparent. In addition to the above we will call the agent's attention to the following facts on the other side of this circular.

J. W. Morrison & Co., Printers, 11 Jefferson Ave., Detroit.

**It is the Only Type-writer Made that you can Print a Column of Figures and Add them up with the Machine.**

**T**HE minimum of bulk and weight renders it possible for agents to carry a stock of as many as two dozen machines with ease. The advantage of this point is obvious. The confidence of the customer can be secured by delivering at once in exchange for cash the very machine that has been submitted as sample.

As no investment is cheaper than that made for education, 'tis the duty of parents to unite instruction with pleasure. Teach your boys and girls to use the Type-writer, and thus become highly proficient in spelling and punctuation—errors of which are much more easily detected in type-written page than any manuscript.

No more useful present can be given than a Gem Type-writer. It amuses and instructs men, women and children. Ministers, Doctors, Lawyers, Teachers, Editors, Authors, Reporters, Insurance Clerks, Commercial Travelers, Students, Hotels, Hospitals and all business establishments will find the Gem a rich blessing. Its cheapness puts it within the reach of all. 'Tis so easy to learn to write with it that the question naturally arises, may not old-fashion penmanship become a lost art?
