

THE
CALIGRAPH,

A PERFECT
WRITING MACHINE
AT LAST.

LIGHTEST RUNNING, MOST DURABLE,
Fastest and Best Machine in Existence.

ITS STRONG POINTS ARE

Portability. Weighing less than half the lightest Writing Machine formerly in use, including a neat canvas travelling case, or a writing table.

Rapidity. Averaging from 60 to 85 words per minute.

Legibility. Giving matter written upon it in the clearest type.

Manifolding, or the making of from 2 to 20 copies at a single writing.

Readiness with which it becomes the faithful servant of the user, many persons attaining upon it the speed of the pen in a single day.

Simplicity and strength of construction.

TO WHOM IS IT USEFUL?

To Clergymen and Lawyers, Banks and Bankers, Merchants and Manufacturers, Authors, Editors and Publishers, Physicians, Stenographers, the Blind, and all having Writing to do.

For particulars, address the
