DESCRIPTION.

The type wheel has 46 letters, figures and points, (everything necessary to write anything desired) on the outer edge (B) and an index, (C) on the inner edge, so that the operator can readily tell where the letters are. In writing, the operator revolves the wheel (either way) by means of the knob, (A) until the desired letter is opposite the printing point, (D) and presses the wheel down, the printing point fitting into the notch in wheel opposite the desired letter. The foot spring raises the wheel to its former position when the operation is repeated as with all other typewriters. The Inking Roll, (H) keeps the letters well supplied with ink and Pawl, operating on the notched bar at rear of machine, spaces automatically after each letter is printed. A foolscap sheet may be printed, which is inserted under the ratchet bar, and if desired a sheet A MILE LONG may be printed. A steel spring (E) holds the paper firmly and the frame holding wheel slides with perfect freedom on a polished steel bar. The other parts are of finished hard brass. The ink roll is of the finest felt and held against the type by a delicate spring. A brass shell filled with ink is furnished with each machine together with full and explicit directions for use. It is packed in a strong wooden case, to insure delivery in good order.

THE

DOLLAR TYPEWRITER

AFTER years of study and experiment, a typewriter has been produced that will **ASTONISH THE WHOLE WORLD** and eventually get into the hands of at least one-half the whole population—**WHY?** Because it **IS A PERFECTLY CONSTRUCTED** machine that will do work equal in quality to any of the high priced machines. It is so **SIMPLE** that a **CHILD CAN OPERATE IT** and will not get out of order. It is **LIGHT** and **PORTABLE**—just the thing for travelers. It is very **ATTRACTIVE** in appearance, made entirely of metal, mounted on a highly polished hard wood base. It will **WRITE RAPIDLY** with practice—15 to 25 words a minute. We **GUARANTEE** every claim for it, and if not as represented **REFUND MONEY**. The **PRICE** is but **ONE DOLLAR!**

We again call your attention to the first statement above. Do we say too much? Will you be one of the **FIRST** to buy or one of the **LAST**?

We have made special arrangements with the manufacturers for an immense number of these machines, and are sure to be able to fill your order promptly and at the price named. Do not **DELAY** but order **TO-DAY**. Every day you do without it is a loss to you. This is the age of typewriters, and no one should be without one.

Read a few of thousands of testimonials written with the typewriter itself received and on file at our office. A thing that receives such commendation has **WONDERFUL MERIT** and that is why we urge you to **BUY NOW**.

Any Typewriting that may be done with any of the high priced machines, from \$100.00 down may be done with this one. It is now possible for **EVERYONE** to own a Typewriter and address and write their letters, postals, etc., in the same way the richest firms do theirs. The monopoly in Typewriters died when "**THE DOLLAR**" was born.

READ THESE TESTIMONIALS.

(WRITTEN WITH THE MACHINE ITSELF.)

We have never asked anyone for a testimonial; every one is a "free-will offering" and may be verified by writing any of the parties (enclosing 2c. stamp for reply). We have nearly **TWO THOUSAND** of these letters, and of course cannot print them all, but give a few which are taken "as they come" from the whole.
